

iPad instructions for
***Proximity
Room View***

A step-by-step guide to
establishing Proximity
Room View on an iPad.

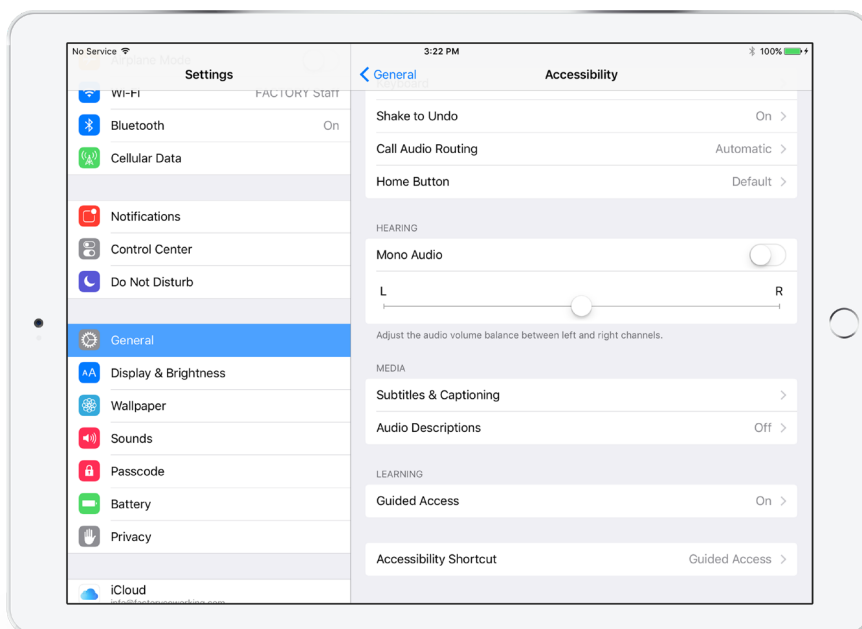

1. Join the network

- + Option 1: Log in through the captive portal with a manager account - this will whitelist the device
- + Option 2: Whitelist the iPad in the Meraki Dashboard

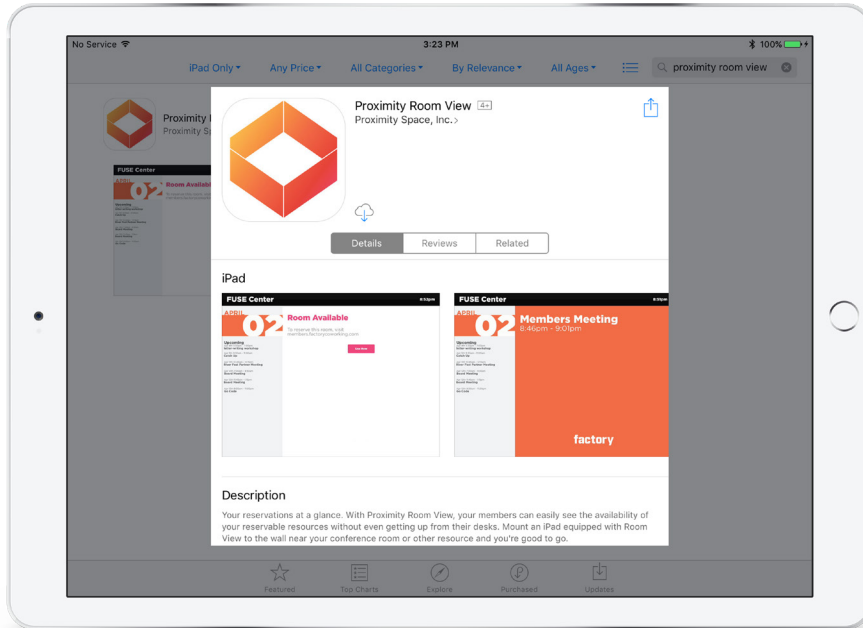

2. Enable “Guided Access”

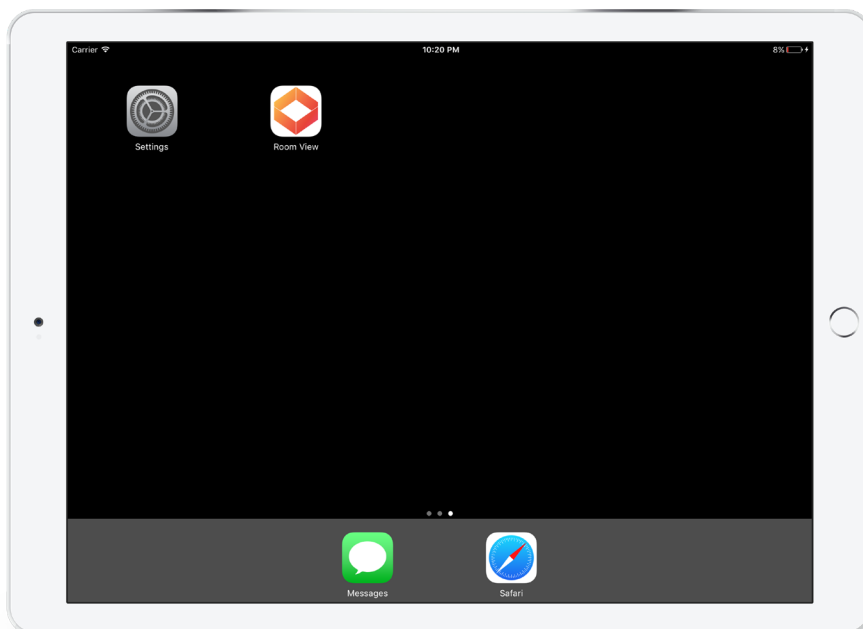

- + Go to **General > Accessibility** and it will be located under **Learning**

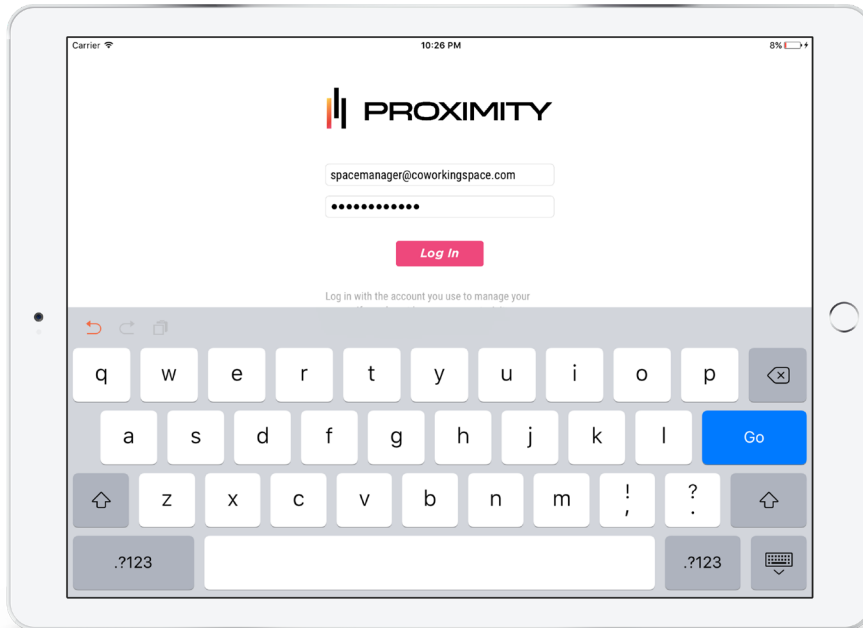

3. Download “Proximity Room View” from the App Store

4. Launch Proximity Room View

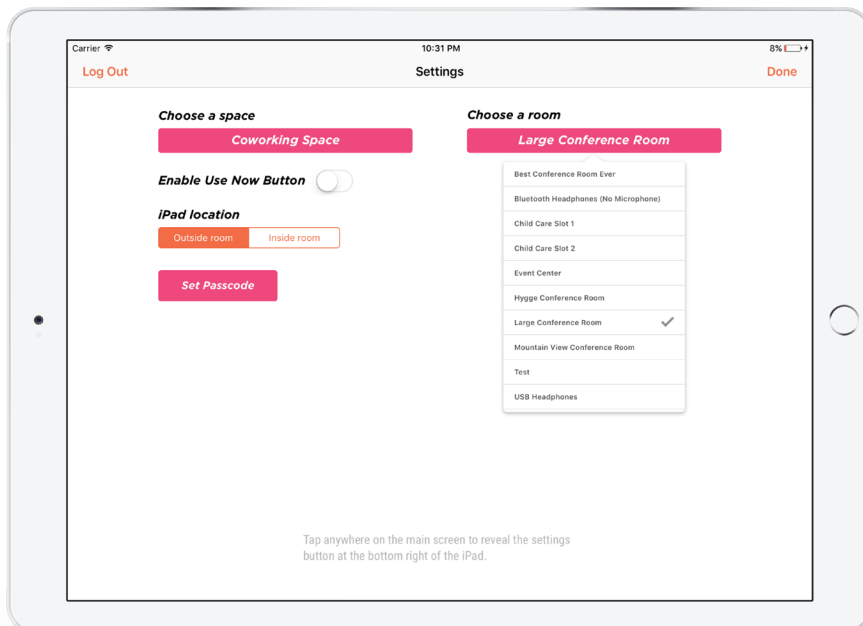

5. Log in as a manager of the space

6. Select the correct space and resource

- + Choose "Interior" or "Exterior" according to where the iPad is located

7. Enable “Guided Access” mode by rapidly tapping the home button three times

8. Be sure to keep the iPad up-to-date

+ *It's recommended to check for updates at least once per week*
